| HIP Pre-termination <br> Processing Fee | PHP500 for each HSBC Installment Plan transaction pre-terminated |

Important Reminder: Paying less than the total amount due will increase the amount of interest you pay and the time it takes to repay your balance.

* The Effective Interest Rate is based on a Php50,000 retail purchase, on the assumption that payments made on the due date are more than the minimum amount due monthly.
** The Effective Interest Rate is based on a Php20,000 cash advance availment, on the assumption that payments made on the due date are more than the minimum amount due monthly.
${ }^{1}$ First year waived.
${ }^{2}$ Finance charges will be assessed on your account if you pay less than the Closing Balance on your account. The average daily balance method will be used upon your outstanding balance as of statement cut-off date, excluding new retail transactions made in the current billing cycle, accrued from the statement cut-off date until the outstanding balance and applicable interest are fully paid. Fees, charges and pre-terminated installments are accrued from transaction date until fully paid.
${ }^{3}$ Cash Advance also refers to quasi-cash transactions and related fees and interest charges. Quasi-cash transactions refer to a purchase of foreign currency or items (including but not limited to, gaming chips, money orders and lottery tickets) which may be convertible to cash; the transfer of funds under a wire transfer money order, the funding of accounts including electronic or virtual wallets and such other transactions as determined by the relevant card association from time to time. Finance charges will be imposed using the average dally balance upon your transaction from the transaction date until the transaction is fully paid.
${ }^{4}$ The Effective Interest Rate is computed based on the actual number of days in a particular month/year. The beginning of the interest date is from the date of the transaction. If you pay any amount less than the Total Due /Total Account Balance or make a cash advance transaction, finance charges at prevailing interest rates will be computed from the date of the transaction until the end of the current statement period.
${ }^{5}$ If Closing Balance is not paid in full on or before the Payment due date, finance charge will be assessed on the service fee for foreign currency transactions:
-Starting from the transaction date until the fee is fully paid, for Mastercard transactions.
- Starting from the statement cut-off date until the fee is fully paid, for Visa transactions.

Below is an illustration of how the Effective Interest Rate (EIR) method is used in computing for the interest of loans including outstanding balances in your credit card.

## Sample Interest Computation

| Retail Purchases |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Monthly effective interest rate: |  | 2.89\% |  |  |  |
| Principal amount: |  | PHP50,000 |  |  |  |
| Month | Retail Purchase | Total Payment | Interest | Outstanding Principal Balance | Total Outstanding Balance |
